

Offshore Marine Technology – PRESS RELEASE for Immediate Use

14th September 2005

NORTH AMERICAN DISTRIBUTOR FOR OFFSHORE MARINE TECHNOLOGY VISITS AUSTRALIA

Hugh Carroll of Thermoboat has been the representative for Navigator Helm Seats and the Navigator Compact Crane for the past 12 months. Located in British Columbia, Hugh has been traveling around North America selling the Australian designed and manufactured helm seats successfully to the North American market.

During the past week, Hugh visited Australia to learn more about the products which he sells and also about our local market here.

Thermoboat will be representing the Navigator Helm Seats and Compact Crane in the following boat shows:

Expo Name	Venue Location	Date
IBEX	Miami, Florida	19-21 st October 2005
Pacific Marine Expo	Seattle, WA	17-19 th November 2005
Seattle Boat Show	Seattle, WA	13-22 nd January 2006

Attached is a photo of the Navigator Helm Seat and Pneumatic Pedestal on a Nordic Tug, located in Seattle.

About Thermoboat

Thermo Boat Ltd. was started by Hugh Carroll to bring to the boating community products that would "**Keep Your Boat Quiet, Warm and Comfortable**". Thermo Boat Ltd. has achieved that by bringing the very best in product and expertise to the market place. A number of the products are manufactured in Australia and have been very well received in North America. When it comes to comfort many North American yachtsman remark that the Navigator chairs are the "best made and the most comfortable" chair they have ever sat in. Hugh is proud to be associated with Navigator and looks forward to servicing the North American market. For more information on Thermo Boat you can go to: www.thermoboat.com

About Offshore Marine Technology

Offshore Marine Technology was established in 2000 to provide the Australian and South Pacific market with high quality seats and cranes. "Every Navigator chair is Australian designed and built from stainless steel. They are upholstered in quality leathers, ultraleather or vinyl and comply with international high speed craft (HSC) regulations." As needs arose additional products have been designed under the well known brand of Navigator. Including pedestals, Navigator Compact Cranes and QuickLift.
