## Offshore Marine Technology – PRESS RELEASE for Immediate Use

24<sup>th</sup> May 2005

### OFFSHORE MARINE TECHNOLOGY HAS A BUMPER BOAT SHOW

Sydney based, Offshore Marine Technology would like to announce that we have had the MOST successful boatshow to date.

At the Sanctuary Cove Boat show (May 2005) we took signed orders on our Navigator Helm Seats, Navigator QuickLift and Underwater Lights. Since the end of the boat show, we have also received a number of orders from people that we met during the show.

The release of our Ultraleather was widely and warmly accepted as the new form of 'synthetic leather'. We are already expecting a number of orders to come through from people having seen it at the Sanctuary Cove Boat show. We also look forward to Riviera adding our fabric to their list of custom options.

Offshore Marine Technology has expected sales of over \$200 000 relating from the show. These sales will come through over the coming months.

Offshore Marine Technology was pleased to also see our seats on a number of display vessels at the show. They included:

- ⊕ Riviera 60 (Compact Seat and Pedestal)
- ⊕ Riviera 51 (2 x Standard Helm Seat with no headrest and pneumatic pedestal)
- ⊕ Riviera 47 (2 x Standard Helm Seat with no headrest and pneumatic pedestal)
- ⊕ Precision 58 (Standard Helm Seat in Leather and Anti Rotation lock pneumatic pedestal)
- ⊕ Kingfisher 54 (Standard Helm Seat with no headrest and pneumatic pedestal)
- ⊕ Deep V 34 (2 x Compact Seats and Pedestals)

#### **About Offshore Marine Technology**

Offshore Marine Technology was established in 2000 to provide the Australian and South Pacific market with high quality seats and cranes. "Every Navigator chair is Australian designed and built from stainless steel. They are upholstered in quality leathers, ultraleather or vinyl and comply with international high speed craft (HSC) regulations." As needs arose additional products have been designed under the well known brand of Navigator. Including pedestals, Navigator Compact Cranes and QuickLift.

Additionally OMT are providers of Opacmare products, OML reverse osmosis water purification systems, Ultraleather and Underwater Lights for the South Pacific. For further information, go to [www.boatparts.com.au](http://www.boatparts.com.au)

For further information, please contact Kirralee Hills on 02-8338 8070.
