Navigator Sports Helm Seat

The new Navigator Sports Helm Seat has been designed to provide you with another alternative in marine yacht seating.

The 'Flip-up' mechanism allows you to utilise the seat as a leaning post for those who prefer to be able to stand or still as a traditional seat.

The seat is built to the Navigator specifications which provides you with specialised lateral and lumbar support for travelling.

When the 'Flip-Up' section is in the lower position, the seat looks and feels like the standard Navigator Compact Seat.

This additional 'Flip-Up' mechanism will be available on the Navigator Flybridge, Pilothouse and WASP seats in the near future.
